### **Welcome to the Snowy River Campus!**

Dear Parents, Guardians, Families and students,

Welcome to the community of the Snowy River Campus for our Term 3, nine week program.

During the course of the next nine weeks, we shall be using uEducateUs to communicate with you a number of times. You will receive uEducateUs communications via the uEducateUs app or email. You can download the uEducateUs app at Google Play for Android or the Apple App Store for iPhone. The content of the communications is to assist you with your side of the Snowy River experience. The information will not necessarily deal with individuals and their achievements, but more about the living and learning process all students will be undertaking. We want to provide you with some early reminders and information for your arrival day and to perhaps help you on your return and continued journey. We hope to post images on Facebook from time-to-time as well.

The first and primary contact for the care and welfare of your son/daughter will be the Snowy River Campus liaison teacher. He or she will introduce themselves to you today and also go through the enrolment details. Later in the week, he or she will contact you via uEducateUs or phone to share how your son/daughter is coping in their new environment. Moreover, in every instance (be it to do with communication from staff or your child), no news is good news!

The health, care and wellbeing of your son/daughter while with us is our primary consideration. In the situation that your son/daughter requires a visit to the doctor or requires medication out of what is *normal*, a Snowy Campus staff member will contact you. We will normally ask you to talk directly with the doctor and usually your son/daughter as appropriate.

Communication with your son/daughter at the Snowy River Campus is discussed in depth in the School & Program Information Book. However, can I stress the incredible value of the **written letter in the first 2 weeks at Snowy**, snail-mail delivered, even in this age of technology? We will encourage your son/daughter to write, and I am sure you will enjoy the narratives you will receive via email, although experience tells us frequency will diminish over time. This week, email will become available after students receive their laptops on Wednesday. If you don't hear from them at all please assume they are having a wonderful time and let your Snowy liaison teacher know via email or uEducateUs. Staff will provide you with contact details on arrival day.

Many of you may have noted our web or Facebook presence. Our web page format is ready to peruse in the cyber world. Information is current and the website very user friendly. The address is [www.snowyriver.vic.edu.au](http://www.snowyriver.vic.edu.au). To access the Facebook page search for: School for Student Leadership Snowy River Campus. This is regularly updated with pictures from the current term.

Students are involved in a number of important processes this term; discovering their learning preferences, expeditions, working with a local primary, hosting a range of guests, setting goals, developing a digital learning portfolio through Sway and iShare – presentation of learning.

Can I again advise that the following items are **strictly not permitted** at the Snowy River Campus and parents/guardians should arrange to take them home with them if their son/daughter has inadvertently packed them? **Retaining some of these items may compromise his/her ability to remain in the program and your child may be returned home at your inconvenience and expense.**

#### **Lollies/junk food/chewing gum**

Our school prides itself on the healthy food we supply our students and there is certainly plenty of it! There is absolutely no need for lollies or junk food of any description. Possession of junk food creates inequity among peers and can place students with special dietary requirements such as anaphylaxis at risk.

#### **Personal Radios/MP3 players/portable speakers**

Cassette/CD player is supplied in the communal lounge areas. Due to privacy and royalty laws, music is not permitted to be downloaded to the school network for the purposes of sharing. Students may bring their music on an external hard drive or USB. Again, please make sure the music language is appropriate. No personal radios, portable speakers, MP3 players, iPods, etc.

#### **Personal electronic games/software**

Not permitted to be loaded on our hardware. We believe these are very isolating and we have genuine licensing legal ramifications in our school setting.

#### **Personal electrical appliances such as hairdryers, hair wands/straighteners and curlers, battery chargers**

These pose safety and ownership issues, as well as potential hair hygiene concerns. Students need to talk to staff about their needs, usage and certificate/compliance for electrical safety.

#### **Mobile phones**

There is an increased problem with security of calls, as well as access security of mobile phones. We encourage students to solve issues here rather than rely on communication elsewhere. Communication is available through email as well as written letters.

#### **Incense or candles**

These are health hazards for some people, as well as being a safety hazard in our building.

#### **Aerosol and pump pack containers**

Deodorant, insect repellent, perfume, cologne and so on. These containers do not fit well with the rubbish and recycling program at the Snowy River Campus. We, like you, are concerned about misuse of propellants by inhalation or ignition. Aerosol cans will also activate the bedroom fire alarms.

#### **Nail polish**

This is a health hazard as some people are allergic to the fumes from these products. Nail polish products can also be a safety hazard as they are flammable.

### **Cigarettes, illicit or non-prescription drugs and alcohol**

Possession, use or attempts to obtain these will result in immediate withdrawal from the program and continuation in the program is not guaranteed. In the past these activities resulted in involuntary removal from the program and transport home at parent's expense.

### **USBs and external hard drives**

We welcome and encourage the use of USB flash drives/memory sticks/portable drives for students to save work, data and images. HOWEVER, they must be empty; free of games, images, or files of any type. This protects our network from both copyright infringement and virus dangers. Please hand these to Snowy River staff on arrival and we advise that this will be checked with your son/daughter's teacher at Snowy River.

We encourage a strong sense of stewardship, ownership and responsibility for the school, which ultimately becomes the students' home. While every effort is taken to assist students in making appropriate decisions, if students choose to do something that result in damage to Snowy River Campus property, **they will incur a cost for repair**. This is especially so with laptop computers which tend to be fragile and portable.

Additionally, reiterate the importance of representing themselves, their family and their home school and in a way that they (and you) would be proud of. Being sent home because of a foolish choice would cause not only themselves embarrassment but their families and home schools. The inconvenience for an early exit will be borne by you the parents/guardians, so please I encourage you to have last words of **"have a great time but please don't do anything silly"** before you depart!

It is normal for students (and parents/guardians) to experience "separation anxiety", or homesickness, in the first week(s) of their experience here and maybe longer, maybe less. Please be assured this is normal and the Snowy staff team is particularly vigilant and experienced in assisting students to cope with this emotion. For the most part this emotion will diminish. Please do not hesitate to contact us, in confidence, if you feel in any way like this. While I make no promises about you being able to talk directly with your son or daughter, and often it only exacerbates the issues and indeed I strongly discourage it except in individual extreme situations, we are happy to be a listener to your experience if you require.

With every good wish,

On behalf of the Snowy River Campus staff team,

**Mark Reeves** BA (Rec.), Grad Dip (OE & PE), Postgrad. Dip (Organizational Change), MACE  
(Principal)

**Robyn Francis**  
(Snowy River Campus – Campus Principal)
